 [asifkonokayan](#)  [asifayan](#)

Summary

Aspiring Full-Stack Developer and CSE Engineering graduate. Proficient in core web technologies including PHP, JavaScript, and API integrations. Currently specializing in the modern web ecosystem, including Tailwind CSS, React, and Next.js. Passionate about building scalable, usercentric applications and leveraging MongoDB for efficient data management. Committed to writing clean, maintainable code and staying at the forefront of emerging technologies.

Education

- **B.Sc in Computer Science**
State University of Bangladesh
(2022 - 2026) CGPA: 2.85
- **Higher Secondary Certificate (HSC)(Science)**
Kalatiya University Collage
(2018 - 2020) GPA: 4.92
- **Secondary School Certificate (SSC)(Science)**
Kalatiya High School
(2017 - 2018) GPA: 4.94

Technical Skills

- Languages: PHP, JavaScript, HTML5
- Frontend Technologies: JavaScript, HTML5
- Backend Technologies: PHP, MySQL, Next.js
- Databases: MySQL
- Development Tools: Visual Studio Code, Git

Projects

- TRAVELLER – Smart Travel, Weather Assistant ([Source code](#))
- Deal-Bazzr E-commerce Website ([Source code](#))
- Samiti Management for Shikhor BD ([Source code](#))

Extra curriculum activities

- **Executive Member** [State University of Bangladesh] Computing Club | Organized tech events and workshops.
- **Runners-up** Intra-University Carrom Tournament | Final Year Sports Competition .

Certifications

- **Complete Full Stack Web Development | Programming Hero**
Focused on MERN stack, JavaScript, and building scalable web applications.
- **Content Creation with AI | Learning Bangladesh**
Mastered using AI tools for digital content strategy and automated workflows.

Projects Details

TRAVELLER – Smart Travel & Weather Assistant

- **Technologies:** PHP, JavaScript, HTML5, CSS3, OpenWeather API
- **Dynamic Trip Planning:** Developed a full-stack web application that allows users to check real-time weather conditions for any destination using API integration.
- **Intelligent Suggestion Engine:** Built a custom recommendation logic that analyzes weather data to advise users on the suitability of a location based on the current season.
- **User-Centric Design:** Designed a responsive and intuitive interface using CSS and JavaScript to enhance the user experience for travelers.
- **Backend Integration:** Implemented PHP to manage server-side operations and handle data flow between the frontend and external APIs.

DEALBAZAR – Multi-Vendor Discount & Marketplace Platform

- **Technologies:** PHP, MySQL, JavaScript, HTML5, CSS3
- **Multi-Role Architecture:** Engineered a complex system with three distinct dashboards for Admin, Seller, and Buyer, implementing secure Rolebased Access Control (RBAC).
- **Discount Aggregator Engine:** Developed a centralized "Flat Discount" module that programmatically fetches and displays all active vendor deals in a single, unified view for buyers.
- **Automated Vendor Ecosystem:** Built an automated onboarding pipeline that dynamically generates seller profiles and dedicated store pages upon registration using MySQL data binding.
- **Commission & Revenue Logic:** Designed and implemented backend algorithms to automatically calculate and process platform commissions for every successful seller transaction.
- **Data-Driven Analytics:** Created a "Top Showroom" feature using optimized SQL queries to track sales volume and highlight high-performing vendors in real-time

SHIKHOR ASSOCIATION – Member Fund & Association Management System

- **Technologies:** PHP, MySQL, JavaScript, HTML5, CSS3
- **Financial Tracking System:** Developed a robust system to track member subscriptions and total association funds with real-time balance updates.
- **Automated Monthly Billing:** Built a "One-Click Payment" logic where admins can process monthly dues for members without manual coding, ensuring efficient record-keeping.
- **Member Management (CRUD):** Implemented a complete administrative module to Add, Update, and Delete member profiles while maintaining historical payment data.
- **Transparency Dashboard:** Created a public-facing Home Page and Member Page where users can transparently view their contribution status and the association's total fund growth.
- **Data Integrity:** Engineered a secure MySQL backend to ensure that financial transactions are accurately logged and prevented from unauthorized modifications.
